## Hope Waning For Missing Havana To Pittsburgh Aviatrix

### Extend Search For Mrs. Keith-Miller Missing Aviatrix

No Trace Of Woman Flying  
From Havana, Cuba  
To Pittsburgh

MISSING SINCE  
FRIDAY MORNING

Plane Is Down Somewhere  
Experts Are Certain—  
Sea Is Scanned

(BULLETIN)

(International News Service)  
MIAMI, Fla., Nov. 29.—  
A sharp vigil was main-  
tained by airplanes flying  
between Miami and Cuba to-  
day for some trace of Mrs.  
J. M. Keith-Miller, Austral-  
ian aviatrix, who has been  
missing since she took off  
from Havana early yester-  
day morning on a flight to  
Pittsburgh.

The Pan-American Airways, Inc.,  
announced this morning that no  
trace of Mrs. Keith-Miller had been  
found since she took off from Ha-  
vana. Four company planes scouted  
the Florida keys yesterday after-  
noon, but reported that their  
search was without result.

No Trace Revealed

A check-up of other points in  
Florida also revealed no trace of  
Mrs. Keith-Miller. However, there  
was a remote possibility that she  
had landed at some out-of-the-way  
point far out of her course, since  
she was down at Charleston, S. C.,  
a week ago on a flight to Miami  
without revealing her identity, while  
an exhaustive search was insti-  
tuted for her.

Airport officials here expressed  
the belief that the plane through  
the lack of a drift indicator, was  
blown off its course into the Gulf  
of Mexico. Three planes are search-  
ing that area, but up until 10  
o'clock this morning they had not

### PA NEW OBSERVES

Large green wreaths are being  
erected on the Pennsylvania Power  
company building, to be lighted in  
the near future and to serve as at-  
tractive Christmas reminders to lo-  
cal citizens.

Pa New observes that one has had  
little difficulty in finding a park-  
ing place even in the most crowded  
downtown sections during the last  
two days. People are afraid to leave  
their cars out for long, even though  
they have plenty of anti-freeze com-  
pound in their radiators.

The small game season will be  
brought to a close today. Members  
of the state game commission ex-  
pect to receive reports of a far big-  
ger kill of game this fall than ever  
before, due to the increased num-  
ber of hunters who have been out.

It is the Christmas season. Thou-  
sands of letters, packages and post-  
cards will be sent through the mails.  
Remember, everybody, that it takes  
a Christmas anti-tuberculosis seal to  
make it Christmas mail.

Pa New observed a great increase  
in the number of people in local  
stores this morning, indicating that  
many people were beginning to  
think about their Christmas shop-  
ping. Several stores were well  
crowded with people, and they were  
buying things not just looking  
around.

Councilman Stanley Treser has  
stated that the department of  
streets will cover paved hills in the

### GIANT GERMAN FLYING BOAT IS BADLY DAMAGED BY FIRE

(BULLETIN)

(International News Service)  
LONDON, Nov. 29.—The giant  
German flying boat DO-X, the  
world's largest and most luxur-  
ious heavier-than-air craft, was  
badly damaged by fire at its an-  
chorage in the Tagus river at  
Lisbon today.

One wing of the huge air liner

was burned before the blaze was ex-  
tinguished, an Exchange Telegraph  
dispatch from Lisbon stated.

Members of the crew worked  
heroically to extinguish the fire to  
prevent the entire craft, built at a  
cost of hundreds of thousands of  
dollars and capable of carrying 150  
persons, from being destroyed.

Prompt work on the part of the  
crew is believed to have saved the

giant air line from complete de-  
struction.

The ship was to have left Lisbon  
today for Cadiz to have its twelve  
motors inspected.

Commander Friedrich Christian-  
sen and the entire crew were aboard  
the DO-X when the fire broke out.  
There were no passengers aboard.

The blaze was discovered at 2 p.  
m., 9 a. m. eastern standard time.

### ARMED BANDITS ROB SOUTHERN EXPRESS CAR; SECURE \$8,000 IN CASH

(BULLETIN)

(International News Service)

BIRMINGHAM, Ala.,  
Nov. 29.—Two men, armed  
and masked, held up the ex-  
press car of Southern Rail-  
way Train No. 19 and escap-  
ed with between \$7,000 and  
\$8,000 in currency as the  
train pulled out of the Bir-  
mingham yards for Selma  
this morning.

G. C. Findley, express messenger,

was forced to lie down on the floor  
of the car as the bandits searched  
for the currency. They apparently  
had previous knowledge it was be-  
ing shipped on Train 19.

Threatening Findley with drawn  
pistols, they then leaped from the  
slowly moving train and disap-  
peared.

After the robbery the train was  
stopped long enough to report the  
matter, then continued to Selma.  
Conductor Wes Little was in charge.  
The money was intended for  
banks along the route, it was said.

### Offer Reward For Return Of Missing Youth

New Theories Are Advanced  
By Parents Of Missing  
Football Star

LETTER STATES  
BOY IN HOSPITAL

(Special To The News)

SLIPPERY ROCK, Pa., Nov. 29.—  
Mr. and Mrs. W. R. Hines, foster  
parents of Robert Hines, missing  
17-year-old high school football  
star, who has been missing from his  
home in Slippery Rock since Nov-  
ember 7, today offered a reward of  
\$250 for information which might  
lead to his return or discovery of his  
whereabouts.

The offer was made following re-  
ceipt of word from the Pittsburgh  
detective bureau that a letter had  
been received by them, stating that  
Robert was in a hospital and was  
being well cared for.

All hospitals in the Pittsburgh dis-  
trict were checked without revealing  
any trace of the missing youth.  
Other hospitals in western Penn-  
sylvania were being checked today.

New Angle to Case.

An entirely new angle was thrown  
on the case today, when Mrs. Hines  
revealed that Robert was an adopt-  
ed son, having been secured by them  
through the Children's Aid society  
of Pittsburgh, when he was but one  
year old.

He was placed in their care by  
Mrs. Edward S. Lindsey of Warren,  
O., wife of the judge of that coun-  
ty. When they received the tiny bit  
of humanity, the name "William  
Kirberger" was written on a slip of  
paper pinned to his clothes.

The theory is now advanced by  
Mrs. Hines that Robert learned of  
this fact and left because of this  
or that his mother, finding out  
where he was, coerced him into re-  
turning to her.

Talented Lad.

Mrs. Hines stated that Robert was  
an unusually talented lad, being an  
accomplished musician. He pos-  
sessed a beautiful voice, and in ad-  
dition played both the violin and  
cornet. He was an honor student at  
Slippery Rock high school, and was  
making preparations to enter col-  
lege after his graduation next year.

Mrs. Hines believes that it would  
have been entirely against his prin-  
ciples to have left of his own ac-  
cord. He had not missed a day in  
school for five years, and was un-  
usually ambitious, having theories  
that he could develop plans to make  
airplanes safer than at the present  
time, and spent much time studying  
various plans and types of planes.

### Ships Reported Lost, Make Port

Are Able To Dock After  
Batling Great Lakes  
Storms For Two  
Days

STORMS LASHING  
GREAT LAKES AREA

(BULLETIN)

(International News Service)  
DETROIT, Nov. 29.—Two ships  
believed lost with their crews in  
the gales that have been lashing  
the Great Lakes were safe in  
port today.

The Lake Simcoe, bound out of  
Port Colburn, Ont., without a cargo,  
arrived in Cleveland at 8 a. m.  
this morning, 24 hours overdue. The  
crew of 22 men attributed the delay  
to strong head winds which the ship  
encountered yesterday.

While the Lake Simcoe was dock-  
ing the Maplebay, a Tree Line Nav-  
igation Company grain carrier, miss-  
ing in Lake Superior for two days,  
appeared at Sault Ste. Marie. Her  
master, Capt. Richard Graham, said  
the freighter had taken shelter in  
the lee of Keweenaw Point.

Aid Sent Simcoe.

BUFFALO, N. Y., Nov. 29.—Coast  
Guard boats ordered today to rush  
to the aid of the Steamer Simcoe of  
the Canadian Steamship line, re-  
ported in distress in Lake Erie, 25  
miles northwest of Fairport, Ohio.  
According to word received here 22  
men are on board the steamer.

An unidentified lake steamer is  
standing by the Simcoe, which was  
reported listing badly. There is no  
wireless on either vessel. The plight  
of the Simcoe was reported by the  
Steamer Young.

Commander Rasmussen of the  
Buffalo Coast Guard ordered two  
coast guard boats from Sandusky,  
Ohio, and two from Erie, Pa., to go  
to the aid of the Simcoe.

### Site Is Selected For Post Office

WASHINGTON, Nov. 29.—The  
post office department selected the  
property of the northwest corner of  
Pittsburgh and Peter streets, Union-  
town, Pa., as the site for the new  
post office building there. The prop-  
erty is known as the Payette Title  
and Banking Co. site and was of-  
fered for \$75,000. The site was se-  
lected on a condition that the city

### E. And A. Host In Reunion Here

Annual Gathering Of Pennsy  
Veterans At Carnegie  
Auditorium

ENTIRE DIVISION  
WELL REPRESENTED

(F. J. MIDDLETON)  
President

Ten thousand and more years of  
service to the Pennsylvania Rail-  
road were represented at noon to-  
day in the Carnegie Auditorium  
when the tenth annual banquet and  
reunion of the Pennsylvania Veter-  
ans' Association of the E. and A.  
Division was held. Veterans who  
have been retired to the roll of  
honor were there, veterans who have  
grown gray in the service were  
there, and with them the youngsters  
who have just been admitted to the  
inner circle through their twenty  
years of service.

Nine times before this have the  
veterans of the road gathered for  
their annual meeting of memories;  
nine times have they lived again the  
days of the link and pin, and today  
marks the tenth time since the or-  
ganization of the association that  
they have answered to the gavel of  
the toastmaster.

Same Toastmaster

The first toastmaster of the Vet-  
erans Association banquet was P. H.  
Kearns and again today "Pat" was  
there with his hand on the oratorical  
thrill, whistling down the  
speakers who were approaching the  
grade crossing of exhausted pa-  
tience, keeping the steam pressure  
up to the blowing off point, keep-  
ing the safety valves of good humor  
popping with his sallies and making  
everybody glad he came.

Every point of the Erie and Ash-  
tubula Division was represented  
from Erie and Ashtabula, from

### Kansas City Jailer Is Shooting Victim

Gangsters Kill Jailer, As He  
Leaves Home, Bound For  
His Duties

(International News Service)

KANSAS CITY, Nov. 29.—Louis A.  
Olivero, former city detective, at  
present a deputy sheriff and chief  
jailer at the county jail, was shot  
and killed today as he left his home  
enroute to his duties at the jail.

Five boys, who witnessed the  
crime, said a sedan drove slowly past  
Olivero and one of the occupants  
fired at him. Olivero received the  
full charge of a sawed off shotgun.  
Olivero, who was said to have the  
largest working knowledge of Ital-  
ian gangsters in the city, received  
many death threats during his of-  
ficial career and had escaped several  
previous traps.

It is the fifth murder in Kansas

### Hoover Plans To Put World Court Issue In Senate

"Lame Duck" Session Of  
Congress Will Meet On  
Monday—Program  
Uncertain

SENATOR BORAH  
OFFERS SUPPORT

Amended World Court Proc-  
edure Will Have Prefer-  
ence Over Other  
Measures

By WILLIAM K. HUTCHINSON  
International News Service Staff  
Correspondent

WASHINGTON, Nov. 29.—  
Gathering for its "lame duck"  
session, the 71st congress faced  
a complicated, uncertain legisla-  
tive future today as a result of  
President Hoover's decision to  
send the amended world court  
protocol to the senate next week.

The president announced he would  
inject the world court issue into the  
short session, which lasts but three  
months, even though all his Capitol  
Hill leaders advised against it. His  
action certainly will complicate en-  
actment of the administration's  
lengthy program for relief of agri-  
culture and unemployment and may  
lead to the calling of an extra ses-  
sion of the new congress, which was  
elected early this month.

Borah Active.

Senator William E. Borah (R) of  
Idaho, chairman of the senate for-  
eign relations committee, immedi-  
ately announced he would rush hear-  
ings on the protocol and report it to  
the senate "as soon as possible."  
Since Borah has been the leader in  
a movement for an extra session of  
the new congress, his attitude was  
considered extremely significant.

Capitol observers pointed out that  
action on the court treaty is a high-  
ly privileged question. Once it is  
reported to the senate, it can be  
called up at any time, taking pre-  
cedence over all other legislation.

It can even displace appropriation  
bills once it is under debate. Con-  
sequently, any group of senators  
seeking to kill other legislation could  
call up the world court, force its  
consideration and sit back while all  
other legislation went to the scrap-  
heap.

Should Be Reported.  
"I feel the world court protocol  
should be reported to the senate as  
soon as the committee has had time  
to reasonably consider," said Borah.

The dead: R. M. Middleton, en-  
gineer; Richenbacher, fireman; R.  
C. Jones and Goslin, brakemen.

Both trains were enroute here  
when the tragedy occurred. The  
first train had taken siding to al-  
low an east bound passenger train  
to clear when the second train plow-  
ed into it, smashing the caboose  
into bits.

The locomotive of the rear train  
rolled down a 15-foot embankment  
after the crash.

### Doak's Confirmation As New Secretary Is Indicated In Capital

President Hoover Appoints  
Virginia Man To Fill  
Davis' Place

Naming Of Doak Causes  
Split Between Hoover  
And Labor Feder-  
ation

By GEORGE E. DURNO  
International News Service Staff  
Correspondent

WASHINGTON, Nov. 29.—  
Despite the opposition of the  
American Federation of Labor,  
indications on Capitol Hill today  
were that William N. Doak of  
Virginia, would be confirmed as  
Secretary of Labor succeeding  
James J. Davis, Senator-elect  
from Pennsylvania.

President Hoover, however, by  
nominating the legislative agent of  
the Brotherhood of Railroad Train-  
men for the cabinet post, may well  
have engendered a political split  
with President William Green of  
the American Federation of Labor  
—possibly, even, the entire orga-  
nization. Political commentators are  
interested in knowing what effect,  
if any, a break with the Federation  
would have on his chances in 1932.

Will Get Support

Opponents of Doak, to block his  
confirmation, would have to get the  
support of the senate insurgents,  
such as Norris and LaFollette, and  
these senators have long enjoyed  
the support of the Brotherhoods.  
In 1924, the Brotherhoods went on  
record in favor of the independent  
presidential candidacy of the elder  
LaFollette. Their newspaper, "La-  
bor," has been a consistent support-  
er of the senate insurgent bloc. So,  
too, has been "Railroad Trainmen,"  
the Brotherhood paper, which Doak  
edits.

In addition, it is understood that  
Senators Glass and Swanson of Vir-  
ginia, approve of Doak, thus assur-  
ing him some Democratic support  
with that of the "regulars."  
Green's recent action in leav-  
ing the White House and announc-  
ing that while he held Doak "in high  
personal esteem," the A. F. of L.  
would oppose any man from outside  
its ranks, forced President Hoover's

### Earl Sontag, 18, Meets Death On Wm. Drake Farm

Popular East Brook High  
School Senior Instantly  
Killed While  
Hunting

ACCIDENT IS FIRST  
OF HUNTING SEASON

Gun, Which Had Been Left  
Leaning Against Rock,  
Accidentally Dis-  
charged

Earl Sontag, aged 18, son  
of Mr. and Mrs. John Sontag,  
of near Rich Hill church on  
the New Castle-Volant road,  
was instantly killed about  
2:30 o'clock Friday after-  
noon by the accidental dis-  
charge of a single barreled  
shotgun with which he was  
hunting. This is the first  
fatal hunting accident in  
Lawrence county this year.

Sontag and Lester Cornea, aged  
14, a neighbor lad, started out hunt-  
ing soon after noon on Friday. Son-  
tag had a single barreled shotgun  
and Cornea had a rifle. They ran  
a rabbit into a hole on a rocky  
section of land on the William  
Drake farm.

Shot By Own Gun

Leaning their guns against some  
rocks, they endeavored to punch  
the rabbit out of the hole with some  
long sticks. Being unsuccessful,  
they decided to go on. Cornea  
picked up his rifle and started  
ahead of Sontag. He had proceeded  
only a few steps when he heard the  
report of Sontag's gun, and turn-  
ing, saw Sontag lying on the ground  
with the whole right side of his  
face shot away.

Cornea ran to the Sontag home  
and summoned Mr. Sontag, who was  
the first to reach the scene of the  
accident. Soon other neighbors  
were there and the body of the boy  
was placed in an automobile and  
taken home. Soon after it was ta-  
ken to an undertaker's owing to the  
nature of the wound.

Shock To Community

Nobody knows exactly how the  
gun was discharged. Sontag was  
not in the habit of carrying his gun  
with the hammer raised. The place  
where it had been deposited was  
very rocky. It is believed that  
when he picked it up the hammer  
caught on a rock, was raised and  
the gun discharged. Coroner J. P.  
Caldwell, who was called, gave a  
verdict of accidental death.

The death of Mr. Sontag was a  
terrible shock, not only to the be-  
lieved family, but to the entire  
community. He was a senior at the  
East Brook high school, an ardent  
student and popular among his  
friends and associates. He was a  
member of the East Brook Bee  
Club, industrious, with a life of  
promise before him. He is survived  
by his parents and one sister,  
Gladys, who is also a senior at the  
East Brook high school.

Funeral services will be held Mon-  
day at 2:30 from the Rich Hill  
church, Wilmington township.

The turkey frame is a bony wreck,  
and the gizzard is long since gone,  
and the white meat's sliced till it  
struck the bone and the drumsticks  
are looking wan. But there's still a  
bit of the turkey wreck, a little saved  
from the crash, and all of it's piled  
in a heap today, and the answer is  
turkey hash. Oh gone is the gob-  
bler so large and proud, with his  
poundage of dark and light, and  
gone are the succulent slices of  
meat, the entire thing is a sight, but  
turkey is far too good to waste, and  
none of it's thrown away, for these  
are the days of the turkey hash  
it's just thirty two today.

HOLLYWOOD, Cal., Nov. 29.—  
—Best speech made on Thanks-  
giving Day was the Prince of  
Wales' before the Americans in  
London. He said: "While the  
world is having trouble finding  
a reason for thanksgiving, we  
English have one; we are thank-  
ful that Bobby Jones quit com-  
petitive golf."

I call that pretty good. The  
other outstanding event was in  
Chicago. Al Capone in his free  
restaurant was to give a turkey  
dinner to 5,000, but some rival  
gangster held up the truck and  
stole 1,000 of the dressed tur-

trick they have pulled yet.

### ALARMING INCREASE IN WOMEN CONVICTS

THE annual report of Commissioner of Correction Patterson of New York shows that women convicted of crime in that city for twelve months numbered 2391, which breaks all records. Moreover, the number of women thus convicted has doubled in the last ten years. Curiously enough, the number of men found guilty has been steadily decreasing. During 1929 exactly 16,890 were sentenced for various offenses. This is a falling off of more than 3000 from the previous year.

Why should criminality decline among men, while it increases among women? That is a poser to challenge the wits of the criminologists. Some will say that it is due to greater activity on the part of the police. But can it be true that this has been directed at one sex to the exclusion. Others say that it is due to the greater freedom of women. Finally, the claim is made that juries are no longer disposed to be sentimental in the matter of women defendants, but feel that they should be treated precisely as men for the same crimes.

Commissioner Patterson, however, is unwilling to accept any of these explanations. "It is all in the realm of pure speculation," he says, "as it will continue to be until such time as we have a central clearing house of information to collect complete details concerning the social background of convicted prisoners." He wants to know authoritatively all about the forces which operate to bring offenders into conflict with the law. Would such a bureau give the desired information? That is a question not easily answered, but it is certainly worth a trial.

What we do know is that, as women have gained additional rights, they have lost many of their traditional privileges. We see it in the lack of courtesy to them on the streets and in the crowds; but we see it most of all in the willingness of men jurors to convict them of serious crimes, particularly the crime of murder.

### HOOVER AND THE "BIG STICK"

It has been said that the duties and prerogatives of the president of the United States are closely defined and severely limited in the constitution. That statement is loose, and has often been riddled in our history.

Consider, for example, the presidential war powers. They are undefined and vast. President Hayes once wrote that they had never been fully defined and that nobody knew what applications of them might be made. President Wilson used those undefined powers in the World War to make the presidency seem dictatorial and almost supreme. President Lincoln before him invoked powers none of his predecessors had made use of.

Even in peace time a president may draw upon unwritten powers to make his office and his personality the decisive weight in the scales of legislation and in the determination of public policy. Everything seems to depend upon the native vigor, the talent for initiative, the genius in interpreting the popular will, which may be possessed by any given president. Suddenly he may flash out of the customary routine to appear as a dominant leader.

With the seventy-second congress divided against him and his party and their policies, President Hoover in 1931 may have to arm himself with these potential powers or see himself and his administration snowed under by partisan opposition. That he is capable of such leadership he proved last spring.

### THE SEASON OF DANGERS

The proverbial thin air is not the only thing upon which should fall the warnings which annually come at this time of the year from watchful family physicians and public health officers. It would pay all to heed them and heed them well.

During the changeable days of autumn and winter people should be careful in their habits. Influenza in epidemic form can make its appearance with startling suddenness under the proper combination of atmospheric conditions and human carelessness. And the common cold thrives on the same sort of combination.

Certain rules are almost essential in fall and winter if one is to escape these ills, which are always annoying and often serious. These simple rules are dress sensibly, eat carefully, sleep regularly and make sure body poisons are being thrown off properly. Where body resistance is strong weather changes are not to be feared.

No other three human maladies cause as much discomfort and economic loss as influenza, grippe and colds. Through them millions of production days are lost between November 1 and June 1, virtually every employed man and woman losing at least one day's work a year because of one or the other of them.

Could medical science exterminate the germs responsible for these human disorders it would thereby bestow upon mankind the greatest of all benefactions. But while waiting for this long-hoped-for benefaction the public should make the fullest use of known methods of prevention.

### CANADA, TOO

Canada, like the United States, is overladen with wheat. It's surplus runs toward 400,000,000 bushels. A big pool was formed two years ago to hold up the price. Like the United States Farm Board, the pool has bought lots of wheat at prices a lot higher than those now prevailing. The pool has latterly been blamed for not selling out a year ago when the price of Manitoba "hard" at Winnipeg was about \$1.50 whereas now it is only 75 cents. Its answer perhaps contains a tip for the Farm Board. The real price of this wheat, when its bought, says the Pool, ought never to have been \$1.50. To have tried to unload it a little later on at that price would have brought on sooner the smash that has since sunk the market.—The New Orleans Morning Tribune.

The best endorsement of mankind is the credit business.

Few men who sell for liberty keep it up after their pay is increased.

Well, it might be worse. Even now murder is unusual enough to be news.

The objection to inalienable rights is that one must fight so hard to keep them.

OR A GRUB

At a fancy-dress dance for children a policeman stationed at the door was instructed not to admit any adult.

An excited woman came running up to the door and demanded admission.

"I'm sorry, ma'am," replied the policeman, "but I can't let anyone in but children."

"But my child is in there as a butterfly," exclaimed the woman, "and has forgotten her wings!"

"Can't help it," replied the policeman, "orders is orders. You'll have to let her represent a caterpillar!"

A few days ago we remarked in this column that there are very few good pumpkin pies any more. Mrs. Russell Melvin who reads this column very piously immediately sent us a huge pumpkin pie that sort of made us ashamed of our chatter. It was about the biggest and finest pie we have ever seen. There are still some great pumpkin pie bakers and Mrs. Melvin is one of them. In the future we will take into consideration the good pie bakers and ignore those who cannot build a good pie.

### Special Session Discussion Extends To Many Questions

Warnings Against Prolonged Debates In Congress Are

Balanced Against Possible Interest In New Matters Of Legislation

Discussion of the possibility of failure to complete the required program of legislation in the short session of Congress has resulted in some condemnation of Senator Borah, who protested against curtailment of free speech in efforts to confine the work to urgent relief matters and appropriations in order to avoid a special session. While vigorously expressed, the Senator's position also is defended. It is recognized that Senator Borah is opposed to filibustering methods.

"To Mr. Borah," says the NEW YORK TIMES (Ind.), "the plan of first aid for everybody's business is 'superlative impudence.' He will not filibuster and does not suppose the Democrats will. But he is convinced that the consideration at the short session of Congress of matters which he regards as pressing." The Times mentions Muscle Shoals, debenture, and lame ducks as among the suggested questions, and concludes that "the consideration of any of them would mean days and weeks of debate."

Emphasizing the "obvious duty of the short session," the CLEVELAND PLAIN DEALER (Ind. Dem.) lists appropriation bills and unemployment legislation, and concludes: "Neither of these duties requires an undue amount of time. They are the first obligation of Congress to the nation. When these duties are completed, such measures as the Muscle Shoals bill and Senator Borah's farm relief plans are entitled to have their day."

"With the nation in the business position it is," according to the WORCESTER EVENING GAZETTE (Ind.), "teamwork among all departments of the government is especially desirable. To have the Senate hold up necessary bills, bills essential to the very carrying on of the government business, would more than likely aggravate the existing conditions. Certainly it wouldn't help them any." The MILWAUKEE SENTINEL (Ind.) comments: "To pass appropriation bills hurriedly and inconsiderately would be a bad thing of course. But there is ample time for the consideration of these and other measures, if a united, patriotic effort is made in Congress to get work done, instead of talking interminably about it. That is all that is sought to be accomplished."

Judging by the experience of recent years," suggests the HARTFORD COURANT (Ind. Rep.), "the Democrats might be expected to throw their influence on the side of the Progressives, but the political situation may dictate other strategy at the present time. While the party is by no means united on policy, it cannot but recognize that its hopes for 1932 in large measure depend upon its ability to impress the country with its responsibility, its conservatism and its trustworthiness. Nothing would be so inimical to such a reputation as a renewal of the coalition with the Progressives for the purpose of forcing an extra session for the discussion of matters which inevitably would disturb business."

Advising that the closure rule should be put into force, the ST. LOUIS GLOBE-DEMOCRAT (Ind.) declares: "It is much to be hoped that the non-radical members of the Senate, who constitute at least three-fourths of it, will take this step to prevent an extra session. There is no occasion whatsoever that is now discernible for an extra session next year." The NEWARK EVENING NEWS (Ind.) contends: "There is no good reason, as things stand, for the extra session of Congress for which agitation has begun. Western Insurgents, who are agitating for it, take themselves too seriously when they think they can offer sovereign remedies for the ills from which the country is striving to recuperate. These ills are not political; they are economic."

"The theory of a free-speech guarantee in parliamentary procedure, as it applies in the Senate, is undoubtedly sound," in the opinion

of the ANN ARBOR DAILY NEWS (Ind.), which finds it "possible to conceive of a situation in which limited debate would save the country from disaster." The HOANOKE TIMES (Ind.) holds that "the legislative game is one of give and take, and it is hard to play it successfully any other way." The SYRACUSE HERALD (Ind.) feels that statements by Senators Borah and Walsh "suggest an opposition posture to develop so formidable a structure of unfinished legislation at the short session that political self-interest will convince the President of the expediency of calling an extra session of the Congress newly elected by the voters."

"The regular business of the short session," declares the BALTIMORE SUN (Ind. Dem.), "should be enacted promptly. Supply bills and other routine measures should not be halted for any reason. In the present shaky temper of the country, any tie-up of such legislation might have a disturbing effect all out of proportion to its real importance. This does not mean that under probable circumstances Senators and Representatives may not express their views on other subjects and seek action on them."

Emphasis upon Senator Borah's promise that there will be no filibuster is placed by the SAN FRANCISCO CHRONICLE (Ind.), with the added comment: "For which the country breathes a sigh of relief. For when it comes to extra sessions, Borah is in a class by himself as an authority. He's the busy boy who brought about the last extra session and he did it without the aid of a filibuster. His promise to lay off this time gives hope that Borah, like the rest of the country, may suspect that extra sessions are not what they have been cracked up to be."

### The World AND THE Mud Puddles

THE ENGLISH LANGUAGE.

Scott Moore, an actor, tells a story. Not many years ago when he was a reporter on a San Francisco newspaper, the staff acquired a new city editor who was grouchy and a stickler for realism. Daily he drilled into his men the importance of literal truth. After a while his insistence on detail became unbearable, and Moore decided to do something about it. In his report of the city's annual charity ball, he had this line:

"Among the most beautiful girls was Alderman Horace Dangley. The city editor next day went right up in the air.

"What's the matter with you?" he demanded of Moore. "Dangley's no girl. In addition, he owns a lot of stock in this paper."

"Can't help that," replied Moore. "That's where Dangley was—among the most beautiful girls."

## Emergency Income Tax Reduction Is Not To Continue

Tax Reduction Voted By Congress,  
Cannot Be Continued  
For Another Year

(International News Service)

WASHINGTON, Nov. 29.—The one per cent emergency income tax reduction voted by congress last year can not be continued another year, Rep. H. E. (Burr) of Oregon, chairman of the house ways and means committee, said today.

There will not, he added, be any increase beyond the level before the one year cut was ordered.

"Anticipated receipts from all sources of revenue for the calendar year 1930," he said, "as compared with the expenditures, which are to be materially increased as the result of recent legislation, will not warrant a renewal at this time of the one per cent reduction in income taxes."

Hawley explained that the one per cent cut voted last year did not affect the general revenue law of 1928. It limited the reduction to taxes on income earned in 1929 and payable in 1930. The reduction was voted by congress after the stock crash as a reassurance to business.

"Neither will there be any increase in taxation," Hawley said. Hawley's statement was made after consultation with treasury experts and a study of government finance.

By New Agreement

(International News Service)

LONDON, Nov. 29.—Great Britain's coal pits today faced a possible tie-up by Monday unless agreements can be reached between miners and mine operators.

Anxious to avert a repetition of misery and bitterness that attended previous coal mine strikes, the labor government redoubled efforts in the hope of patching the differences between the two factions.

The strike has been scheduled for Monday, when the new mines act goes into effect. Workers refused to accept the new arrangements as provided under the "spread-over" system, which would give mine owners the option to compel men to labor ninety hours every two weeks.

The new act fixes the miners' working day at seven and one-half hours. Owners argued that wages must be cut to continue operations under this system.

## Missing Driver Of Wrecked Auto Seeks His Car

Claims He Was Onto Pennsylv-  
ania Engine Before He  
Realized It

Edward Bowers, R. D. Fredonia, Mercer county, owner of the car wrecked early Friday morning at the East Cherry street crossing of the Pennsylvania railroad, when it crashed into an engine at the crossing, made application to Chief of Police C. C. Horner to recover his car on Friday afternoon. He telephoned first and was directed to come into the police station, which he did.

Questioned with regard to the accident in which Mrs. Edna May Cameron sustained a broken leg and other severe injuries, he claims that they were going east on East Cherry street about fifteen miles an hour. They were almost on the crossing when he realized the presence of the engine and also that it was impossible to avoid a collision. The engine was moving slowly, he thought and his car hit the tender.

He had the presence of mind to hold out his hand in front of him and this probably saved him from more serious injuries of the head and face, which however were quite severe. His nose was broken, and his arm badly cut.

According to Bowers, he managed to get out of the machine and was endeavoring to get Mrs. Cameron out, when a member of the crew assisted him to get her out and place her on the station platform.

He was bleeding terribly and asked that they get an ambulance for Mrs. Cameron. One of the men helping took him to a door fearing that he might bleed to death and it was some time later when he had been fixed up and was able to return. His car and Mrs. Cameron were gone and he then started hunting his car.

Possession of the car which was badly wrecked, was given to him.

## TOWN DOCTOR "DOCTOR OF TOWNS" SAYS

**SOMETHING A LITTLE DIFFERENT**  
What can be done when there is the will to do it, was recently evidenced by the almost phenomenal success of a "Business Confidence Week" originated and promulgated by the International Association of Lions Clubs and carried out by Lions Clubs in co-operation with other thinking civic organizations.

Over two hundred million dollars in increased retail business was reported for the week. Two hundred million dollars worth of merchandise taken off the shelves of American Merchants now, means close to half a billion dollars worth of orders for American manufacturers very soon. THAT means money in the pockets of all American people, including yourself.

Like every thing else that is attempted in a BIG way, there were those who said it could not be done—just another case of the fellow who says "It can't be done", being interrupted by somebody doing it!

Now that it has been done as nothing similar has ever been done before, there still are those who will say that they do not see why a man should be a part of an organization such as these Lions Clubs. They will say that they can not AFFORD it; that such organizations never do anything worth while; that there is nothing for them to gain in being a part of the group. Such people always remind one of the story of the farmer who when he saw his first giraffe said "Hell, there ain't no such animal."

There are still a few communities whose leaders are blind to take advantages of being a part of a plan for the good of all. Those communities failed to take in thousands of dollars in increased business in the weeks just past, all because of the failure to recognize the opportunity.

There is no such thing as a self made man. Any thinking person knows that, for without the help of others no man can "get" anywhere. Likewise a community can never be what it can and will be, with the right kind of a Service Club—one which works on the basis of Analyze, Plan and Execute—backed up by a working, ACCOMPLISHING, national organization.

My hat is off to anybody or any group that DOES things, and certainly no one can doubt that to be responsible for \$200,000,000,000 increase in business in 1930 is DOING SOMETHING.

## Season Ends On Small Game

Rabbits And Birds Will  
Have Respite From Guns  
Of Hunters Next  
Week

Many Hunters Planning To  
Take To Woods In  
Search Of Bigger  
Game

Today marks the close of the small game season in Pennsylvania one that has witnessed a record kill, members of the state game commission believe.

The only small game that can now be legally hunted is wild waterfowl, muskrat, raccoon, red squirrels, mink, opossum, skunk, and otter. Most of these are hunted only for their fur.

The season on wild waterfowl ends January 15, 1931. Red squirrels may be hunted between November 1, and August 15; the season on raccoon closes January 15, while the fur bearing animals, mink, opossum, skunk, otter, and muskrat closes on February 28. The muskrat season does not start until December 1, but the other fur bearing animals have been in season since November 1.

With the close of the small game season today, hunters are preparing to take to the woods in search of big game.

Deer comes into season on Monday, the season closing on December 15. Deer kill is limited to one season and six to a hunting party. Each buck must have two points. Elk, males, with 4 or more points may also be killed, the bag limit being one to a hunter and only one to a hunting party.

The three-day special doe season, which opened Thursday, comes to a close today. Hunters who are staying in the woods to hunt bucks, must have their does properly tagged, and be able to prove that it was killed during the special season. Otherwise they will be subject to a heavy fine.

Fire Chief Lynn In  
Teacher's Role Has  
Quiz For Boy Scouts

"If someone decided to jump from a burning building what would you do?" That and countless other questions were fired at a quartet of Boy Scouts of Troop 15 by Fire Chief Chas. H. Lynn in his office at central station Friday afternoon. Seeking variety in his teaching activities—he discusses some of the questions on combating fires with rookie firemen often—the fire chief lined the boys against the wall and gave a test. The scouts were taking the merit badge study for firemanship. The boys quizzed by the chief were Haskell Kitchen, Roy Bayham, Russell Book and Ed McKee.

## Local French Students Are Not Writing Abroad

Junior high school students who are studying French are not corresponding with the boys and girls in France who are making a study of the English language, according to a Benjamin Franklin junior high school French instructor. The reason for this, he addresses of French boys and girls are difficult to obtain. There is a southern company which sends addresses for a small fee, but after letters are written to the boys and girls whose French addresses were furnished, the chances are very slim of getting replies.

## EXPECT MANY SEALS TO BE SOLD IN COUNTY

Christmas Tuberculosis Seal  
Sale Is Underway In City  
And County

The twenty-fourth annual Christmas seal sale is well underway in Lawrence county. Several thousand and letters have been sent out to citizens of the county, containing between 750,000 and 800,000 penny tuberculosis seals.

Lawrence County Tuberculosis Society and all other tuberculosis associations in the United States hope that the citizens will be even more than usually generous with their contributions. This past year has been especially difficult for many. Because of the severe economic pressure the problems of tuberculosis associations have been and will continue to be multiplied. Lack of food, exposure, worry all tend to bring on tuberculosis.

The contributions that local citizens will give from now until Christmas, big, little and medium, will all go to help this movement which has been especially difficult for many. Because of the severe economic pressure the problems of tuberculosis associations have been and will continue to be multiplied. Lack of food, exposure, worry all tend to bring on tuberculosis.

The largest percentage of the proceeds from the Christmas seal sale in Lawrence county this year will stay right here with the local society to be used in taking care of tuberculosis victims and in preventing the disease to progress with others.

Pennies that New Castle residents give for the little bright stamps will mean plenty of fresh air, treatment, rest, nourishing food, sunshine and happy surroundings for hundreds of afflicted persons—men, women and children.

When the seals arrive in the mail, keep them, use them, and send a check for one dollar to the Lawrence County Tuberculosis Society.

## Shenango River Freezes Early

Water Company Employees  
Able To Cross Stream On  
Ice This Morning

According to older employees at the plant of the New Castle Water Company, the Shenango river has frozen earlier this year than at any other time within their memory.

Several of the employees who live across the river and who generally make the trip to and from work by boat, were able to walk across on the ice, which was firm enough to hold the heaviest of the group weighing around 200 pounds.

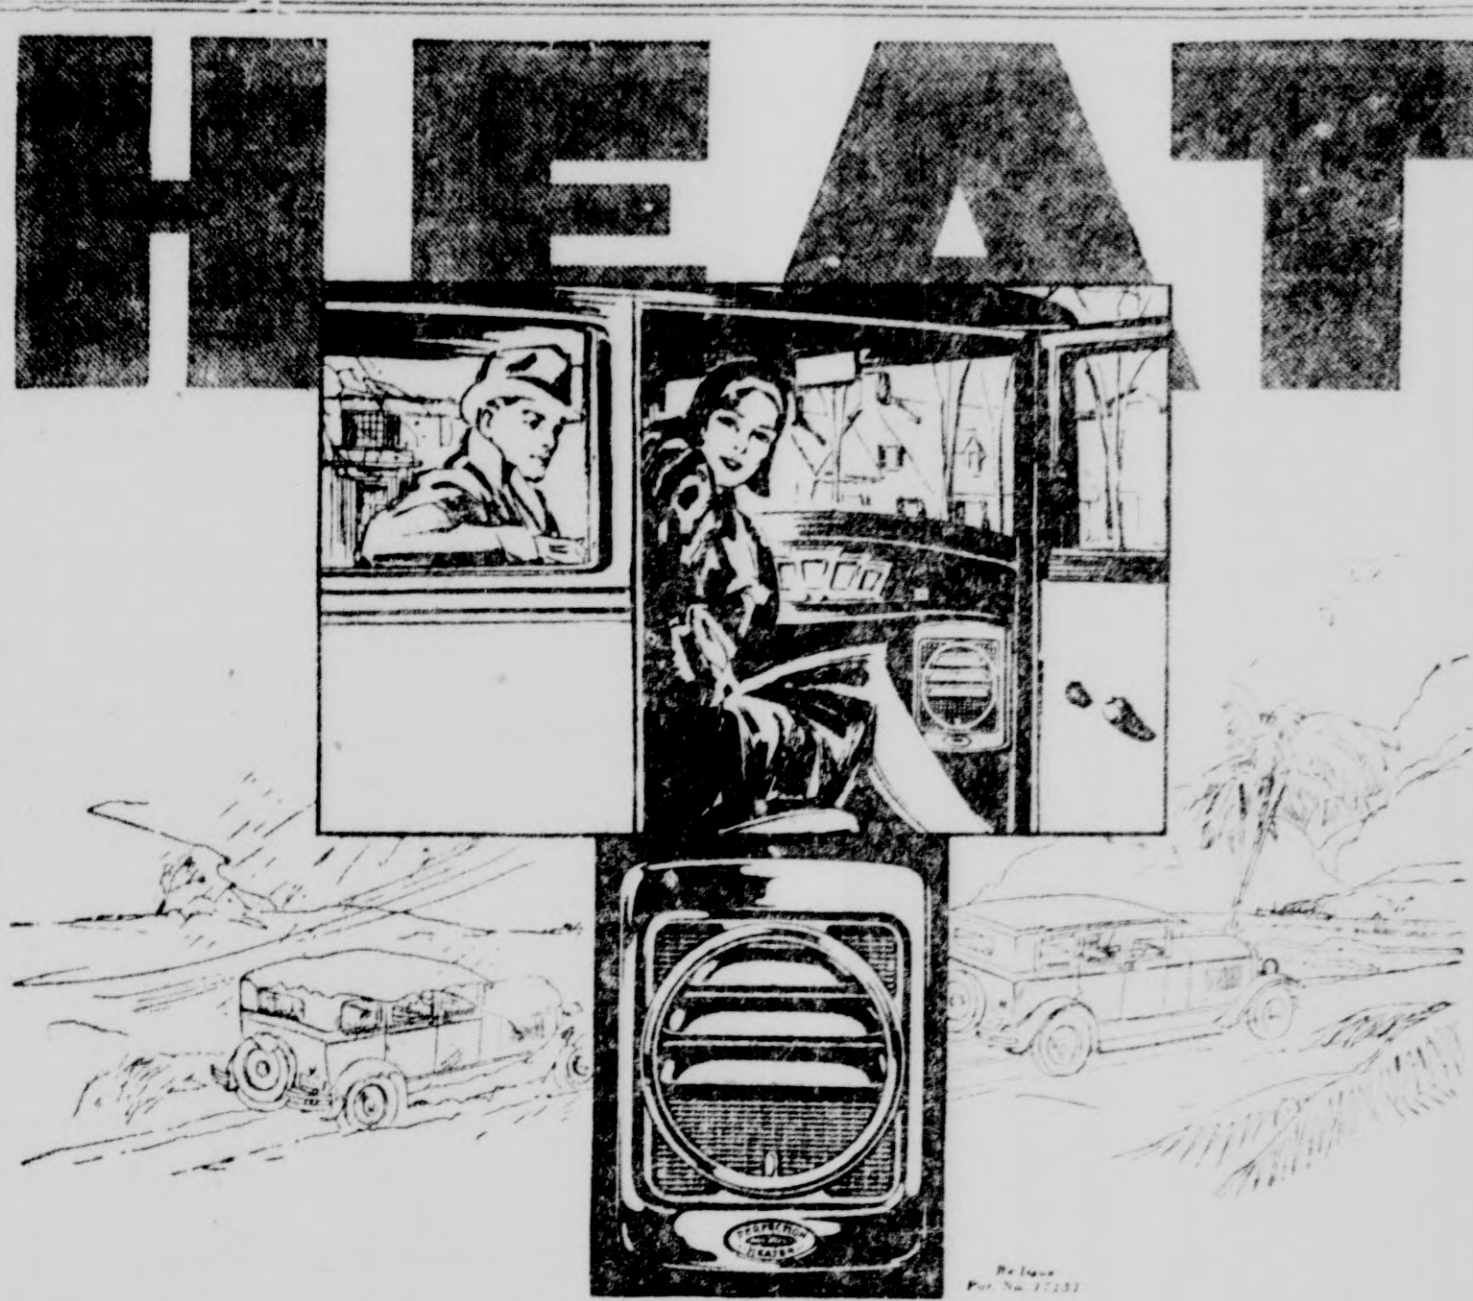

"This is the first time in history that they can recall the river being frozen over at least enough to bear their weight during November."

As a rule, the Shenango freezes later than other streams due to the presence of acid in the water from plants up the stream.

## Over-Eating May Cause Eruptions

Dr. Clendening States Food  
Gives Hives To Some  
Folks

By LOGAN CLENDENING, M. D.  
Opinions are divided about the effect of diet on the skin. One eminent dermatologist thinks that over-eating and constipation are the two most frequent causes of all skin troubles.

A recent article of mine describing the experience of a prominent Chicago physician in curing many stubborn skin diseases by draining the gall bladder (medically, not surgically) is an indication of the same line of thought.

Dermatologists, however, are not of theories. A general practitioner opposed to the excessive use of cathartics, wrote recently that he had reviewed a book on diseases of the skin and found only one disease in which it was not recommended to give a purge as a preliminary to treatment. That was freckles. He said he was glad of that, because he had freckles.

One group of skin eruptions certainly has a definite relation to foods. These are the hypersensitive or allergic diseases. Hives or urticaria is a representative example. Certain special articles of diet, such as milk, nuts or special meats, bring on skin eruptions in the group of sensitized people.

No certain or special form of diet can be recommended as particularly healthy for the skin.

QUESTIONS FROM READERS  
A. T. Boston: "What will prevent baldness?"

Answer: Oh! my poor, dear fellow, if I knew, I would not be writing articles for a paper, freezing in a garret at a miserable stipend. I would be toiling in luxury even in these hard times. Every day I would be carried down Beacon street on the shoulders of an huzzahing crowd attended by the massed marine bands and wearing chaplets and garlands of orchids. The only person of my acquaintance who knows positively the answer to this question is my barber, Leo. He has a secret remedy.

There are, of course, several kinds of baldness. One accompanied by excessive dranduff of the Sebaceous variety is capable of being prevented.

But what you mean, I take it, is common or garden baldness. What the dermatologists, with brutal frankness, call senile baldness. The only treatment for this, I fear, is philosophy. Renounce the thought of nourishing the roots of the hair by rubbing unguents into it. Renounce all ideas of easy conquests in amour. Take up a hobby—the Bacon-Shakespeare controversy, or postage stamps. Collect proverbs such as "No grass grows on a busy street." But by all means get your

mind off your hair. That way madness and reckless expenditures lie.

Editor's Note: Four pamphlets by Doctor Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed stamped envelope to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are "Infant Feeding," "Reducing and Gaining," "Instructions on the Treatment of Diabetes" and "Hygiene of Women."

## Locally Known Man Addresses Club In Sharon

Samuel Rashid, Oriental Rug  
Expert, Speaks To Cos-  
mopolitan Club In  
Sharon

Samuel Rashid, of Chautauque, N. Y., a frequent visitor in New Castle, and with his cousin Abe Rashid, East North street, recently gave a most interesting address before the members of the Cosmopolitan club in Sharon, Pa.

Mr. Rashid, an expert maker of Oriental rugs, spoke on the enthralling subject "The Art of Oriental Rug Weaving." The lecture was one of the most interesting ever heard by the Sharon club.

Mr. Rashid stated that the soul of the Oriental is in the rug designs. The transmission of ancient patterns has been going on for centuries, each district tribe or family having its characteristic patterns and coloring. They are regarded as individual inheritances and are never copied by other districts or tribes.

The Oriental rug expert explained the figures and designs of the Orientals.

Abe Rashid of East North street this city has two other cousins who are expert rug weavers. One is Alec Rashid and another is S. M. Rashid of Ohio, who is writing a book concerning the art. Samuel Rashid, of Chautauque, will spend the week-end in this city.

## More Beds Are Available To Vets

Completion Of Addition At Aspinwall Will Provide Room For 55

Word has been received by the Lawrence County Chapter, American Red Cross, that 55 additional beds will be made available for World War veterans of the local district within the coming month, when an addition at Aspinwall is completed.

Quarters will be provided when space which are now used as a kitchen will be moved into the new mess hall and kitchen building, which is practically completed.

These beds will be made available for general medical and surgical cases, it is said, while the other beds at the hospital will continue in use for tubercular patients only.

This will relieve some of the congestion now existing, applications for treatment having been far ahead of the number which could be cared for during the past six or eight months. At the present time there is a waiting list of around 550. Dr. H. S. Monroe, head of the medical staff at the Pittsburgh Veterans Bureau, states.

## Club Plans To Donate Book To Mountain School

Scrap Book Clubs Are Popular At Benjamin Franklin Junior High School

Girls naturally like to cut pretty magazine pictures and that is one reason why there are several scrap books at the Benjamin junior high school and why there are so many girls interested in these clubs.

The clubs meet twice a month, on Tuesday evenings, during the last period of school, and each member makes the most of the time in working to complete his scrap book. Each scrap book is different—some are cutting out baby pictures, some flowers and others "modes and manners".

Miss Mary Scherger, who is in charge of one of the clubs, explains that each girl donates two sheets from her scrap book each club period to be assembled and made into one large scrap book that will be at the end of the year be presented to a Kentucky mountain mission school.

Last year scrap books were made and donated to the children's ward of the Jameson Memorial hospital and to the Margaret Henry home.

Miss Edythe Dunlap supervises all the clubs at the junior high school.

## Relief Committee To Meet Monday

Figures Regard Unemployed And Part-Time Workers To Be Available

Mayor William H. Gillespie's committee on relief, composed of approximately 22 representative citizens, will hold their third meeting Monday night at council chambers, City Hall, where the fruits of the registration of the unemployed and part-time workers will be reported.

Registration was conducted Wednesday, Friday and today.

The census of the men out of work and those who are working part time was taken for the furnishing to city council of facts.

Recently council decided to launch two municipal projects—construction of a storm sewer in Meyer avenue and grading of Rural avenue. Councilman Trever, streets department, yesterday said the unemployed list would be used when the city availed itself of workmen.

# War Possibility Seen By Reed In Speech To Legion

Senator Reed, Pennsylvania,  
Says Spectre Of Bol-  
shevism Keeps  
War Back

## EUROPEANS ARE GETTING RESTLESS

(International News Service)  
PITTSBURGH, Pa., Nov. 29.—A  
"devil's broth" is brewing in Europe  
in the opinion of Senator David A.  
Reed who believes that only the  
spectre of Bolshevism is keeping  
peace on the continent.

Speaking before an American Legion  
meeting here, Senator Reed  
voiced his belief that "if it weren't  
for the apprehension of Bolshevism,  
the countries of Europe would be at  
each other's throat this very  
minute."

Instanting danger spots, Senator  
Reed pointed to strained feeling be-  
tween France and Italy and "very  
bad blood" between Jugoslavia, a  
French ally, and Italy as making up  
a "black picture."

Pennsylvania's senior senator, a  
member of the American delega-  
tion to the Naval Arms Parley at  
London, said that foreign statesmen  
with whom he had talked are  
pessimistic over the possibility of  
some incident such as that which  
started the World war.

"I believe that if anybody else  
didn't learn a lesson from the World  
war, the British did and we did, and  
we're going to stay neutral if we  
have to lick the whole continent of  
Europe to do it," he said.

The Naval Power held by the  
United States and Great Britain in  
itself is sufficient to maintain  
neutrality and is ready and able to  
punish invasions of neutrality, Reed  
declared.

## Executive Gets Navy Summons

Scout Chief Horton Aims At  
Full Lieutenantcy In  
Regular Service

Ordered east for a period of at  
least 15 days' naval training, Chief  
Scout Executive Herbert G. Horton  
today was preparing to leave the  
city Sunday night. The summons  
came from U. S. navy authorities  
last night and takes effect imme-

Mr. Horton awaited definite in-  
structions today, but said he would  
probably be detailed to service at  
the Philadelphia navy yard.

ant in the navy's junior grade, is  
working for a full commission as a  
lieutenant in the service. The  
full commission equals the rank of  
captain in the army. Training pe-  
riods come annually.

sence.

## Weather Delays Ruth Nichols In Flight To Coast

(International News Service)  
AMARILLO, Texas, Nov. 29.—  
Heavy clouds, a low ceiling and poor  
visibility between Amarillo and Al-  
buquerque, N. M., temporarily de-  
layed Miss Ruth Nichols here today  
in her attempt to set a new East-  
West transcontinental air record for  
women.

Miss Nichols is some four hours  
ahead of the record time set recently  
by Mrs. J. M. Keith-Miller. She  
hoped it would be possible for her  
to take off later today and said she  
would do so immediately when the  
weather cleared.

A close friend of Mrs. Keith-Miller,  
Miss Nichols was scanning news  
reports of the former's apparently  
disastrous Havana-Miami flight  
yesterday anxiously. She expressed  
much fear for the Australian flyer's  
safety.

Ralph Sherman has been in the  
navy for two years now and for the  
past three months he has been lo-  
cated in China.

## RALPH SHERMAN IS TRANSFERRED

1619 Bradley avenue, have received  
a telegram from their son, Ralph,  
a member of the United States  
Navy, informing them that he has  
been transferred from the USS Rizal  
to the USS Pecos. His mail is now  
sent to the USS Pecos, Asiatic fleet,  
care postmaster at Seattle, Wash-  
ington.

Ralph Sherman has been in the  
navy for two years now and for the  
past three months he has been lo-  
cated in China.

## Aliens Forsake Trips To Europe

(International News Service)  
NEW YORK, Nov. 29.—Hundreds  
of aliens planning to sail for Europe  
to spend the holidays have canceled  
—things because of unusual delay by  
Washington officials in passing on  
permits to re-enter the United  
States, it was learned today.

Rather than risk the chance that  
they might be barred from re-entry  
here, the aliens have postponed or  
canceled many sailings. The Levi-

## THE PARENT PROBLEM

### Father Sends Sons' Book To Dr. Myers

Good Traditions, Love, Ideals May Be Left To Children

By GARRY C. MYERS, PH. D.  
Head Division Parental Education,  
Cleveland College, Western  
Reserve University

Some while ago I wrote in these columns: "I wish my readers would write me more about the things they have tried and have done in relation to the family which have worked, and let me pass them along."

Among the generous responses to that article was one signed by a father who signed after his name, "Captain Q. M. reserves, U. S. Army."

Said he "Your article appealed to me because of its 'No holier than thou' attitude. I am constrained by a sense of duty to allow the enclosure to leave your department will honor my request for its safe return in due time as there are but two in existence and, of course, they belong to my sons as their BIRTH-RIGHT."

His enclosure is a booklet with an artistic cover in the family's coat-of-arms tied in Scottish plaid, prepared by the father for his two sons.

On the first page is a picture of the father, with a verse from "Lead Kindly Light." Under it are brief facts about his birth, education, religion and life work. I turn the page and there is the marriage certificate, on the back of which is an account of the parents' wedding.

On the following page are the pictures of the two boys when about three and four, under which appears: "Dedicated to — by their

father, with the fond hope that later on in life they will fully appreciate its motive."

Then a page is devoted to an explanation of the nature of the booklet, with beautiful and dignified expression of affection and religion. Three more pages are addressed to each boy. Among them appears the mother's picture with her sons entitled, "The Inspiration."

The "Valedictory," addressed to the boys as sophomores in college, is most touching and inspiring. In it is found the following: "I ask you to turn in humble submission to the words of this prayer for light and strength and hope, which sustained and carried me so often in the darkness of danger and despair on the battlefields of France. Let us kneel down now on the more tranquil plains of peace and repeat it together."

The valedictory closes with: "You may now carry on the story." This is signed by the father.

On the next page are the two boys' pictures with the name of their college and class date under each, and a small American flag between them. "The Badge of the Clan" on the inside of the back cover concludes the booklet.

I wish all my readers could see this booklet. As Mrs. Myers and I examined it we read it silently with moist, eyes. My description of it doesn't do it justice.

Not all fathers can present their sons with coat-of-arms. But all can give them family traditions, family love, good wishes, and the inspiration of high ideals and a worthy home life.

### Mental Patients Becoming Problem

#### Half Dozen Men From New Castle District In Serious Need Of Attention

Taking care of the great number of World War veterans suffering from various types of mental disease, has become a serious problem with Veterans Bureau authorities.

There are six men in the New Castle district who are seriously in need of hospital treatment at the present time, but no beds are available for them. Secretary Orville Potter of the Lawrence County Chapter, American Red Cross, states:

Veterans Bureau hospitals which take care of this type of disease have been overcrowded for several years, and the situation has become greatly aggravated of late.

Many veterans are now being cared for in state and private institutions, and unless some action is taken during the coming year, many communities throughout the country will be faced with the problem of caring for these men.

# THE NEW CHEVROLET SIX

Strikingly beautiful, fleet and smart  
—a masterpiece of Fisher styling

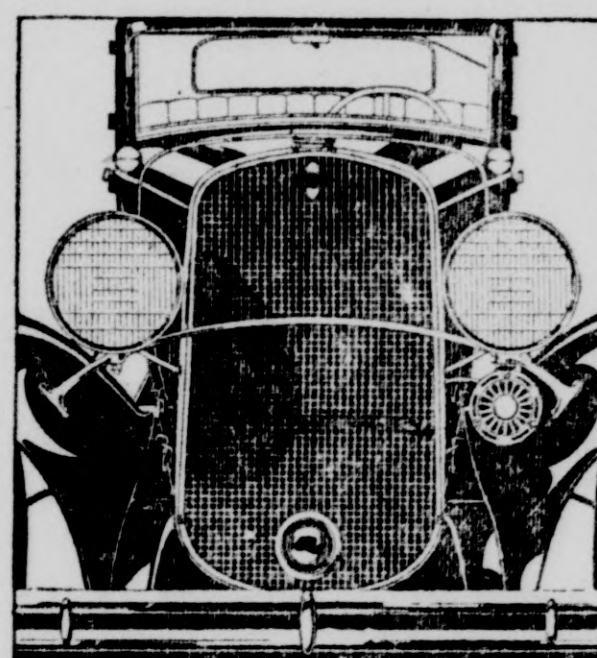

In the entire field of modern coachcraft no symbol has come to mean

more to the buyer of a motor car than *Body by Fisher*. And never has Fisher's superiority been more strikingly exemplified than in the beautiful new bodies of the Bigger and Better Chevrolet Six!

Working with the added advantage of a lengthened wheelbase, Fisher designers have been able to achieve in the new Chevrolet a degree of

smartness, comfort and impressiveness hitherto considered exclusive to cars far higher in price.

Inside and out, you will discover scores of refinements that stamp this car as a masterpiece of modern coachwork. Radiator, headlamps and tie-bar have been artistically grouped to create an unusually attractive and distinctive ensemble. Mouldings sweep back from the graceful new radiator in an unbroken line to blend with the smart new body contours. And new colors, in carefully devised combinations, lend a new individuality.

Front view of the new Chevrolet Sport Coupe

Interiors, too, are exceptional in every way. The new mohair and broadcloth upholstery is tailored with exceptional smartness. Seats are wider and deeper and more luxuriously cushioned. A deeper windshield and wider windows give better vision for both driver and passengers. And beautiful new hardware, of modern design, lends a final note of charm.

The greater quality and beauty of the new Chevrolet-Fisher bodies have a counterpart in the many improvements which have been provided in the chassis of this

Bigger and Better Six. Among these improvements are a longer, deeper, stronger frame; easier steering; a more durable clutch; a quieter, smoother-shifting transmission; and engine refinements which make the new Chevrolet a car you will be happy to drive—as well as proud to own.

The Bigger and Better Chevrolet Six is now on display in our showrooms. See it today—drive it—and learn for yourself that it is the *Great American Value!*

## Bo Broadway by JOSEPH VAN RAALTE

#### By Central Press

NEW YORK, Nov. 29.—Gangland's victims have been addressing leaky letters to the district attorney of New York asking him if he can't do something to rescue them from the toils of the racketeers.

The district attorney apparently had to wait for these communications before realizing just how serious the situation is. He is "amazed" that "businessmen in New York are conducted, not as the proprietors, as free agents, would conduct them, but as they are constrained to conduct them by outsiders."

And when he says "outsiders" the district attorney means gangsters and racketeers.

The amazing thing about this amazing situation is the "amazement" of the district attorney. A reign of terror brought to perfection by the Overlords of Gangland and everybody in town familiar with the details except the one agency that should be conversant with every shadowy angle—the district attorney's office.

Why is it that, as a usual thing, the lone man in any community who possesses a detached viewpoint is the chief prosecuting officer? Do

they get these jobs because they are mole-eyed?

#### AND THAT'S THAT.

After "going into conference" with some of the lads under his care in Sing Sing, Warden Laves arises to remark that "there are probably about 10,000 persons engaged in rackets of all kinds in New York City." The police, he says, "know who the racketeers are and it ought to be found out why they don't get after them."

Police Commissioner Mulrooney says it ain't so—and there the matter ends.

It's the way matters of this kind always end. A responsible official like Warden Laves makes a sensational charge, involving the men, in another responsible official's department. The party of the second part denies the allegation—and that's that.

Meantime the various Crime Commissions creak drearily as they lumber on. It's all good newspaper "copy"—but where's the percentage?

#### BATTLE WITH TIME.

However, let's go on to higher ground. Let's have a round with dear old Belle Livingston.

Fields, when The Great White Way extended ten dizzy blocks from the Flatiron Building to Herald Square—the days of long-haired football players, handsome cabs, tan boxcoats and fifteen cent highballs. Belle Livingston was going strong.

Then came a change, as all things human change. The war intervened, later Prohibition, and a couple of years ago, back from Paris, where she'd taken refuge, came Belle Livingston with a lot of years behind her, and most of the old crowd that knew her, and that she knew, gone into the discard.

Belle has made a brave attempt to fight down memories and to carve out for herself a sort of sublimated Tex Guinan niche in this gin-swingin', cigaroot-suckin' and irreverent era—and I don't think it can be said that she's made much of a success.

A lot of smart, young Parkave-noors kid Belle in a violet-scented k' glove sort of way—but that's rather a sorry thing to do. After all, there's something admirable in the lady's refusal to bow to the dictates of Old Father Time.

She's just opened a new "Mecca of Merriment" in the Funny Fifties. In this most recent of Wild Out Casinos, Belle attempts to bring together "the moneyed and the mental."

Naturally, she does nothing of the sort. Her "Mecca of Merriment" is just another one of Those Places that's being advertised wrong. The two things Belle stresses, money and brains, are the two things she should soft pedal when talking of her new

joint. Those words scare the boobies and how can you operate a swank, pagan rendezvous these days, without boobies?

# HIGHLIGHTS OF HISTORY

By J. Carroll Mansfield

18. George Rogers Clark—On The Eve Of Departure

CLARK SPENT A MONTH ON CORN ISLAND WAITING FOR THE RIVER TO RISE HIGH ENOUGH TO ENABLE HIS BOATS TO CROSS THE FALLS OF THE OHIO. MEANWHILE HE RECEIVED A SMALL REINFORCEMENT FROM KENTUCKY, WHICH GAVE HIM IN ALL SOME 220 MEN. —

ON THE EVE OF EMBARKING ON HIS EPIC CAMPAIGN, CLARK ASSEMBLED HIS MEN AND FOR THE FIRST TIME REVEALED THAT HIS INSTRUCTIONS WERE TO INVAD THE DISTANT ILLINOIS COUNTRY AND SEIZE THE BRITISH FORTS THERE. —

CLARK'S ANNOUNCEMENT CAUSED GREAT EXCITEMENT AMONG THE MEN OF HIS COMMAND, NONE OF WHOM HAD SUSPECTED THE TRUE OBJECT OF THE EXPEDITION. A FEW WERE GREATLY ALARMED, MANY WERE INCLINED TO DOUBT THAT SO RASH AN ENTERPRISE COULD SUCCEED, BUT MOST DECLARED THEY WOULD FOLLOW THEIR LEADER. —

THAT NIGHT 15 OR 20 MEN DESERTED. CLARK HAD POSTED ADDITIONAL SENTRIES ON THE ISLAND, BUT THE DESERTERS SLIPPED THROUGH THE LINES, WADED TO THE MAIN- AND AND ESCAPED INTO THE FOREST. —

# NEW YORK STOCKS

## Narrow Price Range In Market Trading

By W. S. COUSINS  
International News Service Financial Editor

NEW YORK, Nov. 29.—After an irregular opening, in which most of the active stocks were forced downward, the stock market rallied today and recovered its early losses.

Transactions in the first half-hour totaled only 179,000 shares, and the speed of the market was no greater in the next hour. Left to their own devices, the active stocks churned around in the narrowest of price ranges.

The week-end business reports showed some improvement, especially in the trades and industries favorably affected by colder weather. Retail stores and mail-order houses reported an increasing buying demand for holiday goods and clothing of various kinds. Cotton and wool moved down the price scale in the week-end market, but grain was steady.

Losses of 1 to 3 points were recorded in the initial sales of the Railroad stocks, based on the continuance of unfavorable reports of October earnings and November car

# Probably No Change With Local Effect In Re-apportionment

If the next session of congress re-apportions the United States congressional districts, and it seems highly probable that it will, Pennsylvania will lose two congressmen, getting but 34 in the place of the present 36. In addition, Pennsylvania will lose four electoral votes for the presidency, each state getting two electors for each congressman and senator.

The reapportionment of the state into congressional districts will be done by the general assembly of the state, if the national reapportionment goes through, but it is felt that any action by the general assembly will have no effect upon the 26th district, comprising Lawrence, Butler and Beaver counties.

**Over Proportion.**  
Under the new census figures of 1930, which show the United States to have something over 122,000,000 people, each congressman will represent approximately 230,000 people. The total population of the 26th district at the present time is over 330,000, Lawrence county having approximately 100,000, Beaver approximately 150,000 and Butler about 80,000.

There has been some talk that Mercer county might be added to the 26th district and Butler joined with another congressional district. This would put the 26th district in a straight line of three counties, beginning near Sewickley, Pa., and ending above Greenville. There would be little difference in the population, Mercer and Butler counties having about the same population, with Mercer leading Butler.

**State Apportionment.**  
It is altogether probable that the state will also be re-apportioned to legislative and state senatorial districts. Under the new population of Pennsylvania, a representative in the General Assembly will

represent about 48,000 people. New Castle has more population than that, so that the first district would not be touched, and the second district also has sufficient population. In the state senatorial apportionment, the 47th district, comprising Lawrence and Beaver counties, has nearly 250,000 people, and is 53,000 over the quota. Allegheny county may get a new state senator as it now has population to warrant seven. It now has six. Philadelphia would not get any more as that county has eight which is the limit as set down by the constitution.

There are districts that are away below the necessary proportion, among them the 17th district comprising Lebanon County and part of Lancaster County. The fifteenth district comprising Dauphin county is also below the quota as is the tenth district comprising Bucks county. This district has hardly half of the required population.

Under the constitution every county is given at least one member of the House, regardless of the population. In order to get the required number for the Senate, counties are joined together. One district is the twenty sixth, comprising Cameron, Clarion, Clinton, Elk and Forest counties.

Whatever redistricting is done, either for congress or the General Assembly, New Castle and Lawrence county will not see any change. The only possibility is that Mercer county may be added to this congressional district and Butler added to another district. This is highly conjectural however, and arises from the statement of some Mercer county citizens that they would like to be joined to a more compact congressional district. At present they are joined with Crawford, Venango and Warren counties.

# Leaders Hope To Forestall Plans Of Extra-Session

Republican Leadership Virtually Capitulates To Progressives

NO EXCUSE FOR SPECIAL SESSION

Speaker Longworth Against Session In New Year For "Lame Ducks"

By GEORGE R. HOLMES  
International News Service Staff Correspondent

WASHINGTON, Nov. 29.—The Republican leadership in the present congress virtually capitulated to the progressives all along the line today in an effort to forestall an extra session of the 72nd congress after the 4th of next March.

After conference with other Republican leaders, Speaker Nick Longworth declared today that he was favorable to having the present congress vote on "every conceivable controversial measure" in order that there shall not be the shadow of an excuse for an extra session.

Both these measures have in the past been adopted by the senate, only to run into the hard-boiled Republican organization in the house which never would permit them to come to a vote.

"I am wholly and absolutely and definitely opposed to an extra session," said Longworth. "I think the slow business recovery now is due to a large extent to the last special session, which ran far into the summer. Another special session would further retard recovery."

"I am convinced the country is in good condition, that, basically, everything is sound, and that legislative uncertainty is the greatest menace to recovery. I am anxious to avoid any possible excuse for an extra session, and if that excuse is the failure to get a vote on controversial measures then I'm in favor of permitting a vote."

**Norris Opposed.**  
Then, referring to the Norris bills on Muscle Shoals and lame duck sessions, he said: "I am personally opposed to government operation of utilities and power plants, but I can see a distinction in this particular case. There we own the property and have spent about \$150,000,000 on it. I don't think this particular case would definitely commit us to a general policy of government operation."

Longworth said he had little doubt that the bill could be passed in the House, but he offered no opinion as to whether President Hoover would veto or approve it.

As for the bill to end lame duck sessions and bring a newly elected Congress into office in January after election, instead of 13 months after election, Longworth said he was inclined to favor it, providing a specific date is set for the termination of the second session. A suggested date has been May 4, but the present Norris date contains none.

The first thing for Congress to do when it convenes on Monday is to start passing appropriation bills, Longworth said. He said he hoped to have the House dispose of at least three before the Christmas recess. Its other legislative ambitions should be confined, he said, to passing "constructive measures" for the relief of unemployment.

# Governor Pollard Inspects Region Of Textile Strike

Virginia Governor Goes To Strike District To Look Into Protests

(International News Service)

RICHMOND, Va., Nov. 29.—Gov. John G. Pollard left here this afternoon for Danville where he has approximately 1,000 National Guardsmen patrolling the vicinity of the Dan river and riverside Textile Mills, and the three mill villages.

Employees of the mills have been on a strike since September 29. The governor said he wanted to learn first hand the protests of Union leaders and some Danville residents, about his action in sending troops there, and the charge of the Union men that the soldiers chased pickets from the mill gates and burned their shanties and tents.

Col. H. L. Opie, commandant of the troops, has recommended that three machine gun units be ordered out.

**Emmett Smith, 54, Dies In Old Home**

Concrete Contractor Had Many Friends In New Castle; Funeral On Monday

Emmett Smith, 54, of Cochranton, Pa., near Meadville, a concrete contractor, who had numerous friends in this city, died this morning at his home after a short illness. He was a life long resident of Cochranton. He is survived by a sister, Miss Bell Smith, also of Cochranton.

Funeral services will be held at the late residence Monday at 2:30 p. m. Interment in the Cochranton cemetery.

Wage cuts over the past two years led to the strike, but when the greater portion of the 12,000 to 15,000 workers employed in the hosiery mills of Reading and nearby Berks county failed to join in the movement the disgruntled workers decided to return to work. About 29 mills were affected.

Edward Callahan, general organizer of the American Federation of full fashioned hosiery workers however, in revealing the strike, had ended declared the strikers were successful.

# Elderly Hunter Issues Challenge

Gets Deer While Hunting In Elk County Since Season Opened

G. C. Harper, 409 Northview avenue, is seventy-six years of age, and has just returned from Elk county, where he was successful in bringing down an antlerless deer, something that many younger hunters have not been so fortunate as to be able to do.

He believes that he is the oldest hunter of this district to bring down a deer this season and is anxious to hear of any man as old or older, in the county, who can boast of as good a record.

Mr. Harper, who has been hunting for the past sixty years takes great delight in hunting and believes his age in his actions and appearance and is able to keep pace with much younger men than he is.

He shot the deer from a distance of about 75 yards. His first shot went through the nose of the deer. It continued to run after wounded and he followed it with his gun as it ran perhaps another 75 yards and when it reached an open space he fired again, the bullet taking effect in the head and killing it.

Correct this sentence "After forty years of conspicuous success," said the critic, "he still abominates talking about himself."

Their first child, a son, was born to Mr. and Mrs. Arthur Kempton of Belfast 40 years after their marriage.

## Fulfilling Bet Nearly Fatal To Bridge Walkers

Fulfilling Bet, Result Of Football Wager, Nearly Costs Life Of Two Men

(International News Service)  
CHARLEROI, Pa., Nov. 29.—Settlement of a football wager today almost resulted in the death of two men who were rescued from the perilous perch in the wind-blown rigging of a railroad bridge when they had climbed to fulfill betting promises.

Donnie Isaho, 24, of Monessen, was in the Charleroi-Monessen hospital recovering from the effects of exposure for more than three hours on the icy girder of the double deck bridge of the Pittsburgh and West Virginia railroad.

Frank Dale, 22, the young man's companion, was recovering from similar effects at his home here.

Both men, by losing the wager, were to cross the top deck of the bridge from one side of the Monongahela river to the other and then make a return walk.

Isaho and Dale had fulfilled their wagers and were returning when the near tragedy occurred. Isaho climbed down into a 15-foot girder-hold where he collapsed from the intense cold on top of the structure.

Dale crept over the gale-swept girders to his companion's rescue but was powerless to aid Isaho and remained with him for more than three hours on the tiny spot of safety.

Charleroi, Monessen, North Belle Vernon and Belle Vernon fire departments responded to the call for aid. John Marauda, a Charleroi fireman, climbed across a line to the girder-perch and lowered the two-trapped men to the ground with ropes.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

This is one day in the year that a Pennsylvania Railroad veteran doesn't care whether he works or not, and usually he doesn't. It's the day of the annual reunion and banquet of the Veterans Association and for the day at least some of the youngsters can run the road.

Up until noon today they were dropping off trains, motoring in and then a special train from Ashtabula breezed in with a load of vets, all of them wearing their little keystone in the buttonhole. Without that keystone they wouldn't have much chance of getting into the Carnegie auditorium, with it, they don't have to cry "open, oh sesame."

This is the tenth affair of its kind and happens to be the tenth one that the conductor of this column has attended. By now they've got me looking forward to their banquet, and with just cause. The food is usually just right, the entertainment is good and the opportunity of meeting some of the very old timers is too good to be missed.

Perhaps you've noticed it isn't so hard to get parking space these mornings, or afternoons.

Some time ago I promised Bob Armstrong that his name would not be used in this corner of the paper. But when a fellow shoots a very small deer at a distance of 500 yards, with the weather cold enough to freeze your hands and affect your guage of distance, it ought to be worth something.

Then there's the lad from town here who went rabbit hunting on Thanksgiving Day. He brought back three. The first rabbit the crowd chased under a stone and shot with a twenty two calibre rifle. The second one ran between one of the men's feet and got shot for his pains, the rabbit, not the feet, and the third was just sitting enjoying the view when doom over took him.

Some of these benefit football games for the unemployed funds in various cities promise to be whizzing in the matter of drawing down big gates. For the privilege of broadcasting the Army-Navy football game on December 13, one radio manufacturer has contributed \$150,000 to the fund. Comb that one out of your goatie.

Tomorrow's piece de resistance in the way of football will be the Army against Mr. Rocke's pupils, and what a brawl that is going to be. The Army-Notre Dame football game is traditionally a rough one, a sort of survival of the fittest.

One of the coast Dartmouth's Big Green-teen will try conclusions with Pop Warner's Stanford team. College football these days is getting to be a cross country run. St. Mary's came from the Pacific Coast to play Fordham, Dartmouth is on the coast now. Notre Dame goes there on December 6th, to play Southern California, and on New Years Day, Alabama (probably) will play Washington State.

Back in the good old days (?) the team that a two hundred mile trip away from their home lot felt rather superior to the other teams. Now a college football player gets his education on trains. English is taught in the dining car and Mathematics in the smoking car.

What we want to know now, right soon, is just what kind of basketball we can expect in this district this winter. Whether Westminster will still reign supreme, whether Grove City has finally got a team together that can beat the Titans and whether Ganzy Benedict is still going to lead the Duke attack.

## Senior High Will Present Operetta

Tang Of Salt Sea To Fill High Auditorium Next Friday

Next Friday evening the atmosphere of the senior high school auditorium will be filled with the tang of the salt sea when a cast of 50 sailor lads and their lassies tie and untangle the strands in "The

Nautical Knot", an operetta filled with tuneful solos, duets and choruses. Jolly jack tars at their love-making, and coy maidens will include in their number a gallant adventurer, a bashful suitor, a blundering friend, a beautiful but haughty belle and a lovely, gentle damsel. "The Nautical Knot" is inevitable.

Even the names under which the young musicians will masquerade contribute to the seaside flavor of their operetta.

Barnabas Lee, Joe Stout, Bill Salt and the gentle Nance could have no other home than the seaside town of Barnstapole. The haughty belle, Julia, alone has a name that sets her apart from the simple sailor folk. All are a unit in their interest in the voyage of "The Bounding Bil-low" whose crew includes a Jim Spray, a Ned Bluff and a Jack Brace, thoroughly in love with the life on the ocean wave and with Delia, Daisy and Cora, maids of Barnstapole.

"The Nautical Knot" is being produced as a benefit for the department of music at the senior high school.
